The LoC/International Border in J and K is spread over vast area and is porous due to its undulating and wooded topography. Traditional identified routs are often not used by infiltrators so as to give the security forces the slip and no fixed route of infiltration is used as the route is changed frequently.

However, to check infiltration and terrorist incidents in the State, the Government has adopted a multi-pronged approach to curb terrorism in Jammu and Kashmir, which includes, *inter-alia*, strengthening border management, dynamic deployment/ redeployment of Security Forces, neutralising plans of the militants by pro-active action against them in the hinterland, including counduct of special operations, setting up nakas and ambushes,

gearing up intelligence machinery, greater functional integration through an institutional frame work of Operation Groups and Intelligence Groups of the UHQ at all levels, setting up of Village Defence Committees, setting up of outposts of the Security Forces and regular patrolling, improved technology, weapons and equipments for security forces etc. As part of J and K Action Plan 1998, the State Government of Jammu and Kashmir has been advised to issue photo identity card to all male habitants in the age group of 16 to 60 years living within 25 kms of the Line of Control/ International Border.

The Cabinet Committee on Security have recently approved the project of construction of fencing and flood lighting on Jammu International Border by adopting a multi-model approach, in order to check infiltration and smuggling of weapons/explosive etc.
